

## Dr. Joachim Kreysa

Name: Dr. Joachim Kreysa  
Nationality: German  
Education: Diplom Holzwirt, Phd.

Dr. Kreysa joined the EC in 1985, to run a study on the future of forestry & forest industries in Europe. From 1989 he set-up and worked in ÉCLAIR and AIR, the first Agro-Industrial Research Programmes, including *inter alia* projects on biorefineries. Since then he worked in different functions and a range of topics, including development cooperation, BSE, recruitment, REACH/ECHA, alternative testing methods, and GMO-detection. Today he is back to his roots as the BioEconomy Advisor to the JRC's Director for strategy and work programme coordination.
